PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of experience building scalable, production-grade web applications across fintech, e-commerce, and enterprise domains. Proficient in the MERN stack and Next.js, with hands-on ownership of both frontend and backend development. Skilled in building responsive UIs and robust REST/GraphQL APIs using Node.js, Express, NestJS, PostgreSQL, and MongoDB. Award-winning contributor known for shipping high-quality features end to end.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Chakra UI, Responsive Web Design

Backend: Node.js, Express.js, NestJS, GraphQL, REST APIs

Databases: PostgreSQL, MongoDB

Tools & Concepts: Git, Problem Solving, Data Structures & Algorithms

PROFESSIONAL EXPERIENCE

Tatvam AI Labs — Full Stack Developer (MERN)

Bangalore, India

Frontend: Next.js, Tailwind CSS | Backend: Node.js, Express, PostgreSQL

- Developed and maintained three production web platforms — Divyamarga, Gurumurthy Guruji, and Sai Samasthana — owning end-to-end frontend and backend development.
- Built Divyamarga, a hybrid astrology and e-commerce platform combining consultation booking with a full product catalog and checkout flow.
- Engineered Sai Samasthana, a management system to track records of devotees, temples, and volunteers, centralizing organizational data and reporting.
- Designed responsive, SEO-friendly interfaces with Next.js and Tailwind CSS, backed by scalable REST APIs built on Node.js, Express, and PostgreSQL.

Sheshi AI — Full Stack Developer (SDE-1)

9 Months

Frontend: Next.js, Tailwind CSS | Backend: Node.js, NestJS, PostgreSQL

- Contributed to Sheshi FR2.0, a financial reporting platform, delivering features across the full stack from UI to database.
- Built dynamic, high-performance UIs with Next.js and Tailwind CSS, backed by scalable APIs and services using Node.js, NestJS, and PostgreSQL.
- Awarded the "Fingerprint of Sheshi FR2.0" for outstanding contribution to the product's core development.

PROJECTS

Personal Finance Tracker — React.js, Node.js, Express, MongoDB, GraphQL

- Built a full-stack application enabling users to track income, expenses, and savings with daily, weekly, monthly, yearly, and all-time filters.
- Implemented GraphQL APIs and interactive charts to visualize financial trends, giving users clear insights into their spending habits.

Live Video Conferencing App — MERN Stack (MongoDB, Express, React, Node.js)

- Developed a real-time video conferencing platform supporting live multi-user meetings with a smooth, responsive experience.
- Integrated a collaborative in-call notepad, allowing participants to take and share notes during meetings in real time.

EDUCATION

B.Tech, B.N. College of Engineering and Technology, Lucknow

CGPA: 7.9

Full Stack Web Development (MERN) — Masai School, Bangalore

ACHIEVEMENTS

- Recipient of the "Fingerprint of Sheshi FR2.0" award for excellence in product development.
- Chess Champion — recognized for strategic thinking and analytical problem-solving.
