PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 10+ months of industry experience and freelance delivery experience building scalable, production-grade web applications across fintech, e-commerce, and enterprise domains. Proficient in the MERN stack and Next.js, with end-to-end ownership of frontend and backend development. Skilled in building responsive UIs and robust REST/GraphQL APIs using Node.js, Express, NestJS, PostgreSQL, and MongoDB. Award-winning contributor known for shipping high-quality features end to end.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Redux Toolkit, TanStack React Query, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, NestJS, GraphQL, REST APIs

Databases: PostgreSQL, MongoDB

Tools & Concepts: Git, CI/CD Pipelines, Object-Oriented Programming (OOP), Data Structures & Algorithms

Soft Skills: Problem-Solving, Time Management, Adaptability, Ownership

PROFESSIONAL EXPERIENCE

Tatvam AI Labs — Full Stack Developer (MERN)

Bangalore, India | 06/2026 – Present

Stack: Next.js, Tailwind CSS, Node.js, Express, PostgreSQL

- Developed and maintained three production web platforms — Divyamarga, Gurumurthy Guruji, and Sai Samasthana — owning end-to-end frontend and backend development.
- Built Divyamarga, a hybrid astrology and e-commerce platform combining consultation booking with a full product catalog and checkout flow.
- Engineered Sai Samasthana, a management system to track records of devotees, temples, and volunteers, centralizing organizational data and reporting.
- Designed responsive, SEO-friendly interfaces with Next.js and Tailwind CSS, backed by scalable REST APIs built on Node.js, Express, and PostgreSQL.

Sheshi AI — Full Stack Developer (SDE-1)

03/2025 – 11/2025 · 9 months

Stack: Next.js, Tailwind CSS, Node.js, NestJS, PostgreSQL

- Contributed to Sheshi FR2.0, a financial reporting platform, delivering features across the full stack from UI to database.
- Built dynamic, high-performance UIs with Next.js and Tailwind CSS, backed by scalable APIs and services using Node.js, NestJS, and PostgreSQL.
- Awarded the 'Fingerprint of Sheshi FR2.0' for outstanding contribution to the product's core development.

Freelance Full Stack Developer

Remote | 01/2026 – 04/2026 · 4 months

Stack: Next.js, Tailwind CSS, MongoDB, Express, Node.js (MERN)

- Partnered directly with a startup client to translate business and design requirements into a production-ready website.
- Owned the full delivery cycle — UI design, development, and deployment — as an independent freelance developer.

PROJECTS

Futureloopix — Company Website — Next.js, Tailwind CSS [Live Site](#) | [GitHub](#)

- Designed and developed the complete frontend of Futureloopix, a startup's official company website, based on client requirements.
- Built a custom, fully responsive UI using Next.js and Tailwind CSS, shipped end to end as a live production website.

Personal Finance Tracker — React.js, Node.js, Express, MongoDB, GraphQL [Live Demo](#) | [GitHub](#)

- Built a full-stack app to track income, expenses, and savings with daily, weekly, monthly, yearly, and all-time filters.
- Implemented GraphQL APIs and interactive charts to deliver clear, actionable financial insights.

Live Video Conferencing App — MERN Stack (MongoDB, Express, React, Node.js) · Under Development [GitHub](#)

- Developing a real-time, multi-user video conferencing platform with a collaborative in-call notepad for sharing notes during meetings.

EDUCATION

B.Tech in Computer Science — B.N. College of Engineering and Technology, Lucknow

08/2019 – 07/2023

CGPA: 7.9

Full Stack Web Development (MERN) — Masai School, Bangalore

07/2024 – 02/2025

ACHIEVEMENTS

- Recipient of the 'Fingerprint of Sheshi FR2.0' award for excellence in product development.
- Chess Champion — recognized for strategic thinking and analytical problem-solving.
